

# Patient Powered Registries

**20+**  
years of registry  
experience

**150**  
epidemiologists,  
statisticians, and  
pharmacovigilance  
experts

over **1000**  
publications

CorEvitas offers **fit-for-purpose** observational registries providing clinically-rich, longitudinal **real-world data** (RWD) that are >98% complete, and leveraging **direct-to-patient** and hybrid approaches.

Our **deep scientific knowledge** and broad operational expertise answer crucial clinical, regulatory, and commercial questions including patient journey, market segmentation, participant preference, and treatment satisfaction.

#### Scientific Excellence

Expert scientific guidance for protocol design and answering your most complex research questions.

#### Tailored Data Capture

Flexible framework captures RWD from integrated data sets, providing insights on the lived patient experience.

#### Comprehensive Participant Support

Patient Navigators support patient recruitment, retention, compliance, and advocacy relationships.

#### Registry Operations Management

Each project is led by our seasoned project management team, providing a white-glove level of program oversight.
