About CorEvitas:

CorEvitas® is the built-for-purpose, gold-standard provider of real-world evidence. We advance patient care by generating robust real-world insights into health conditions and therapeutics. The Specialty EMR Data Team can identify, access and analyse real-world data from a multitude of diverse sources to answer a range of research questions about disease epidemiology, burden, treatment, comparative effectiveness and cost. Our Vantage® platform provides fast on-demand access to real-world data, from flexible cross-sectional analysis to powerful visualisations and longitudinal tracking.
